

EVERY DAY

DOMINION LINEMAN RANDY HARLESS HELPS DELIVER RELIABLE POWER, EVEN WHEN MOTHER NATURE HAS OTHER IDEAS.

When the weather threatens, it can get cold and dark fast. And nothing's more important to us than keeping our customers warm and their lights on. That's why we begin preparing long before the storm arrives. So linemen like Randy—as well as hundreds of others working to restore service—can do what they do best: get the power back on quickly and safely. This job isn't for everyone. But the linemen who do it can't imagine doing anything else.

To report power outages, please call us toll-free at 1-866-DOM-HELP (1-866-366-4357).
