

# EVERY DAY

DOMINION LINEMAN DENNIS McDADE HELPS COOK MILLIONS OF MEALS USING A BALANCED MIX OF ENERGY SOURCES.

It takes just the right combination of ingredients to create a healthy meal. And it takes a balanced mix of new energy sources to ensure that we have the reliable electricity we'll need as Virginia continues to grow. Using a combination of wind power, clean coal, emissions-free nuclear energy and clean-burning natural gas—along with conservation—Dominion's plan will help strengthen our economy, keeping our businesses growing and communities vibrant. It's a recipe that will benefit everyone in Virginia.

WHAT WE DO EVERY DAY, POWERS YOUR EVERY DAY.

**Dominion**  
It all starts here.
