

Our roots in the
community run deep.
Just ask a third-grader.

At Dominion we're committed to strengthening our community and protecting the environment. That's why we've partnered with public schools in Virginia, Connecticut, Massachusetts and Rhode Island on **Project Plant It!**, a program to teach third-graders about the value of trees in our ecosystem. Dominion has developed engaging classroom lessons and is providing them at no cost to more than 200 schools and nearly 20,000 students. In celebration of Arbor Day, participating classrooms are given trees to plant on their school grounds, and every child will be given a tree seedling to plant at home. It's a wonderful way to share our dedication to improving the environment and our community.
